FOR IMMEDIATE RELEASE

Silverback Strategic Defense, Inc. Launches New IRS Tax Audit Defense Service

Annandale, NJ 9/5/2023 – Silverback Strategic Defense, Inc. (SSDI) has launched Silverback Tax Audit Defense, LLC, a unique subscription based membership service designed for small businesses. Developed by Attorneys and CPAs, Silverback Tax Audit Defense offers audit protection to businesses nationwide concerning IRS tax audits. Unlike existing audit protection plans from tax prep software or firms that only cover returns filed through them, Silverback Tax Audit Defense will provide defense of returns prepared and filed by other services or firms.

According to Stephen Lam, CPA, advisor to the Board of Directors, “Our mission is to provide America’s small business owners peace of mind from the extremely high costs of professional fees incurred when facing an IRS audit. As you might be aware, the cost of an average audit defended by your CPA ranges from \$3,500 to over \$15,000 with your books and records in good standing. Should there be issues encountered or as deemed by the agent, that cost could be much greater depending on the amount of additional time required by your CPA to perform the detailed tasks for your defense. With a Silverback membership, your defense is covered up to and including appeals.”

Members will also receive monthly updates on tax law changes, industries being targeted for audits, and other litigations in the works that could greatly affect their businesses. Membership plans start as low as \$59.95 per month. For detailed information, please visit our website at <https://silverbacktaxauditdefense.com> or call our office at 1-866-511-6030 to speak with one of our Navigators regarding the various membership levels available to fit your specific needs. Join Silverback Tax Audit Defense today and enjoy audit protection by a team of extremely experienced professionals, leaving you free to focus on running your business.
